

„AUTOMATION AND INDUSTRIE 4.0 IN THE BALTICS – MEET THE EXPERTS“

A world-class digital infrastructure. GDP industry-percentages that match the one of Germany. Startups like Skype, Transferwise and Pipedrive. Excellent ICT workforce. Extensive EU subsidies for regional stimulation. There are many superlatives when it comes to the Baltics. All three countries – Estonia, Latvia and Lithuania – are showing extraordinary growth rates. Thanks to substantial international investments and domestic expenditures in digital manufacture and ICT, the Baltic region offers ideal conditions for suppliers of automation and industry 4.0 solutions.

Take the chance and talk to decision makers, experts and Baltic companies alike, find partners and competent advice at an exclusive meeting, hosted by the German-Baltic Chamber of Commerce (AHK)!

Honourable guest:

Mr. Mindaugas Sinkevicius, Minister of Economy of the Republic of Lithuania

Automation and Industrie 4.0 in the Baltics

25 April 2017, 10:00-12:00, Hall 3, H31/8 (Free Lunch included)

Meet experts and potential business partners!

Things you didn't know about the Baltic States

- Latvia is the fastest growing market for Mobile Internet in the World (2016: + 174%) (2nd in Finland, 3rd Sweden)
- Europe's Northern IT-Startup Hub: 400 Startups in Estonia's Capital Tallinn alone
- Global Top scorers for broadband internet
- Lithuania supports Industrie 4.0 with its own national platform, matching governmental, business and research partners in working groups, competence centers and seminars
- Institutions like the Estonian Association of Information Technology and Telecommunications (ITL) work closely with German and international Technology Partners, Embassies and International Chambers

Our event provides you with unique opportunities:

- Learn about three upcoming high tech markets in the heart of Europe!
- Meet the decision makers first hand!
- Check business potentials for production, development and projects!
